11th Annual Sporting Clays Event

For the Benefit of
Save A Warrior™

Saturday
August 25th, 2018.

Saturday, August 25, 2018

Cardinal Shooting Center
616 State Route 61 Marengo,
Ohio 43334

Your donation and participation in **COAC** events positively affects the local community, Ohio's wounded veterans, and those who love and support them.

Networking opportunities at **COAC** events have also had a positive impact on the veterans, their caregivers and the other participants. Many participants at **COAC** events are local business leaders, enabling veterans to make connections that have led to employment opportunities.

With your help we have raised nearly **\$500,000** in 10 years for the following organizations:

- Save A Warrior™
- Resurrecting Lives Foundation
- Honor Flight Network
- Veterans of Foreign Wars of the United States
- Marshall University Vets for Vets
- Chris Kyle Memorial Benefit

**Save A
Warrior™**

www.saveawarrior.org

Save A Warrior™ is an innovative, evidence-based program that provides a powerful healing experience for active duty military, veterans and first responders who are suffering from Post-Traumatic Stress (PTS).

There is a suicide epidemic among our nation's warriors:

- 22 warriors are lost each day
- 8,000 warriors are lost each year
- 800,000 Iraq and Afghanistan veterans are currently suffering from PTS

The majority of veterans with symptoms of PTS will tell you it is worse than war itself. PTS can be debilitating, causing severe stress, anxiety, paranoia and irritability. Many warriors who served in combat struggle to maintain jobs, relationships and sobriety. For some, the pain can be too much to handle, leading to suicide.

Our "War Detox" Program changes lives

The goal of the "war detox" experience is to reduce pain and increase resiliency of warriors suffering from PTS. The formula for healing is entirely based on lifestyle changes that entrench our warriors in a new and healthier way of being.

- Half of participants reported previous suicide attempts
- Almost 90 percent experienced suicidal ideation prior to their attendance in the program
